Fiscal Year Ending March 31, 2023	_	40.00					
Fiscal Year Ending March 31, 2023 (Estimates)			_	40.00	80.00		

(Note) Revision of estimated dividends announced during the latest quarter: No

3. Forecast of Consolidated Business Results for the Fiscal Year Ending March 31, 2023 (April 1, 2022 - March 31, 2023)

(% indicates increase (decrease) from the previous fiscal year)

	Revenue	Business Profit	Operating Profit	Profit Before Income Taxes and Equity in Net Profit of Affiliated Companies	Net Profit Attributable to Owners of Parent	Basic Earnings per Share
	Millions of Yen %	Millions of Yen %	Yen			
Annual	200,000 16.2	5,000 912.1	8,000 143.1	10,500 157.2	8,000 361.9	131.22

(Note) Revision of forecast of consolidated business results announced during the latest quarter: Yes

#### Notes

- (1) Changes in significant subsidiaries in the consolidated cumulative second quarter of the current fiscal year (i.e. changes in specified subsidiaries (*tokutei kogaisha*) which involve change in scope of consolidation): None
- (2) Changes in accounting principles and/or accounting estimates:
  - (i) Changes in accounting principles required by IFRS: None
  - (ii) Changes in accounting principles other than (i) above: None
  - (iii) Changes in accounting estimates: None
- (3) Number of Issued Shares (Common Stock)

		Second Quarter ended September 30, 2022	Fiscal Year ended March 31, 2022
(i)	Number of issued shares (including treasury stock) as of the end of:	64,500,000 shares	65,589,042 shares
(ii)	Number of shares held as treasury stock as of the end of:	4,523,114 shares	4,130,773 shares
(iii)	Average number of shares during	4,323,114 Shares	4,130,773 shares
	consolidated second quarter (second quarter ended September 30):	60,965,308 shares	62,438,539 shares

<sup>\*</sup>These quarterly financial statements are exempt from the review procedures.

#### \*Cautionary Statement regarding Forecast of Business Results

(Implementation of the International Financial Reporting Standards ("IFRS"))

Our group has implemented IFRS starting from the current consolidated fiscal year. The financial figures for the corresponding period of the previous fiscal year and the previous fiscal year are also presented in accordance with IFRS. For differences between IFRS and U.S. GAAP in the financial figures, please see "2. Condensed Quarterly Consolidated Financial Statements and Accompanying Notes – (5) Notes to Condensed Quarterly Consolidated Financial Statements (First-time adoption)" on page 18 of the attached materials.

#### (Cautionary note on forward-looking statements)

The forecast of business results is based on reasonable information we obtained as of the date hereof and, due to various risks, uncertainties and other factors arising in the future, actual results in the future may differ largely from the estimates set out in this document. For notes on conditions used for the forecast of business results and cautionary statements regarding forecast of business results, please see "1. Qualitative Information regarding Consolidated Performance during the Second Quarter – (3) Qualitative Information regarding Forecast of Consolidated Business Results" on page 9 of the attached materials.

(Our group voluntarily implements the International Financial Reporting Standards ("IFRS") starting from the beginning of the current cumulative second quarter, and the results for the previous cumulative second quarter have been reclassified to conform to IFRS.)

During the current consolidated cumulative second quarter (April 1, 2022 - September 30, 2022), our group's domestic business environment continued to remain challenging as the number of customers visiting our retail stores still had a weak bounce back, despite relaxation of restrictions related to the coronavirus pandemic ("COVID-19"). The outlook is challenging due to price inflation of raw materials and energy as well as the recent rapid depreciation of the Japanese yen. Our business environment in the United States remained sluggish due to weaker consumer confidence as a result of the continuing inflation and higher interest rates to control such inflation. Our business in China also remained challenging due to the continuing implementation of strict COVID-19 restrictions. Our business in Europe, on the other hand, maintained its strong sales despite the continuing inflation. In addition, our business in other Asian countries showed signs of recovery as relaxation of COVID-19 restrictions took place and foot traffic increased.

Under such circumstances, our group is moving forward with our initiatives to address increasingly complex and diverse social issues as an opportunity for future growth, and to enhance our corporate value by promoting "sustainable management", a management approach that balances resolving social issues on one hand and sustainable growth on the other hand through our business activities, under the 'VISION 2030", our medium-to-long term strategy framework which we announced in June 2022. In addition, our new mid-term business plan for the next three years, which starts in the current fiscal year, is designed to lay the foundation to realize our new vision formulated under "VISION 2030", which is "to evolve and grow" as "Wacoal Group of the World" by providing both physical and emotional beauty and richness to individuals through high sensitivity and premium quality", and to promote initiatives for transforming into a highly profitable company capable of sustainable growth.

In our domestic business, we will continue promoting our unique CX strategy including the utilization of our customer database and merger between online and offline activities to improve value of our customer experience, and strengthening our efforts to improve profitability, aiming "to transform ourselves into a resilient corporate structure". In our overseas business, we will seek further expansion by expanding our e-commerce business and entering into the

emerging markets, in addition to expanding solid sales growth in the existing areas where we conduct our business. On the financial strategies side, we will work to improve our return on equity by improving profitability and capital efficiency while conducting active investments for growth.

As a result of the above, for the current consolidated cumulative second quarter, consolidated revenue was 97.51 billion yen (an increase of 13.0% as compared to the corresponding period of the previous fiscal year), consolidated business profit was 4.34 billion yen (an increase of 14.7% as compared to the corresponding period of the previous fiscal year), consolidated operating profit was 4.00 billion yen (a decrease of 13.3% as compared to the corresponding period of the previous fiscal year), consolidated profit before income taxes and equity in net profit of affiliated companies were 5.88 billion yen (an increase of 8.0% as compared to the corresponding period of the previous fiscal year), and consolidated net profit attributable to owners of parent was 4.20 billion yen (an increase of 22.3% as compared to the corresponding period of the previous fiscal year). The key exchange rates used for the current consolidated cumulative second quarter (the corresponding period of the previous fiscal year) were: 133.97 yen (109.80 yen) to the U.S. dollar; 162.89 yen (152.50 yen) to the Sterling pound; and 19.88 yen (16.99 yen) to the Chinese yuan.

Other	(265)	-	49	0.7	+314	-

# a. Wacoal Business (Domestic)

In our "Wacoal Business (Domestic)" segment, we promoted our unique CX strategy to improve value of our customer experience, and continue to make efforts on cost structure reform, in order to achieve the core strategy aiming "to transform ourselves into a resilient corporate structure" under our mid-term business plan.

During the current cumulative second quarter, sales from our existing member customers both offline and online (our e-commerce website) remained strong as a result of our successful efforts to strengthen the retention marketing aimed at our existing member customers. Sales from non-member customers, including new customers, however, continued to be sluggish and fell significantly below our expectation as we could not implement marketing measures aimed at increasing store visits. In addition, delay in the normalization of the production at our factory in Vietnam caused delays in the delivery schedule of our products under our core brands, which resulted in a loss of sales opportunities.

As a result of the above, revenue attributable to our "Wacoal Business (Domestic)" segment was 48.87 billion yen (an increase of 13.8% as compared to such revenue for the corresponding period of the previous fiscal

year). Operating profit was 1.57 billion yen (an increase of 3.0% as compared to such operating profit for the corresponding period of the previous fiscal year) due to the reduction of fixed costs as a part of our cost structure reform, in addition to increased revenue, offsetting the increase in costs related to the expansion of our Moriyama Distribution Center. Starting in the current fiscal year, we have changed the presentation of net sales from Wacoal Corp. related to transactions with department stores to be based on storefront prices, but we have not made retroactive revisions. This change in presentation has no impact on operating profit because this change resulted in increased in both revenue and selling, general and administrative expenses of the same amount (2.61 billion yen).

#### b. Wacoal Business (Overseas)

In order to "accelerate global growth" which is one of our core strategies under the mid-term business plan with respect to our "Wacoal Business (Overseas)" segment, we continue to make efforts to acquire new customers by strengthening digital marketing and to convert existing customers to loyal customers by utilizing data and strengthening CRM.

Sales from Wacoal Europe Ltd. ("Wacoal Europe") increased as a result of expansion of sales of our products under "Elomi" brand against the backdrop of the growing body-neutral trend (accepting your body for what it is), in addition to the strong sales from swimwear products supported by the relaxation of COVID-19 restrictions in the United Kingdom and Europe. On the other hand, sales from Wacoal International Corp. (U.S.) were sluggish due to the absence of the recovery from the impact of COVID-19 seen during the corresponding period of the previous fiscal year, as well as deterioration in consumer confidence in the wake of the inflation and the rise in interest rates to control such inflation. Sales from Wacoal America, Inc. on a local currency basis, decreased due to the impact of our major clients' restraint of procurement, as well as weak sales from our physical stores. In addition, sales from Intimates Online, Inc. ("Intimates Online"), which distributes the "LIVELY" brand significantly decreased as our efforts to reassess media mix to attract new customers failed to produce results. Sales from Wacoal China Co., Ltd. ("Wacoal China") significantly decreased due to the impact of the strict restrictions on activities under the zero-COVID policy, in addition to the weak e-commerce sales.

As a result of the above-described factors and the recent rapid depreciation of the Japanese yen against key currencies, sales revenues attributable to our "Wacoal Business (Overseas)" segment on a Japanese yen basis were 35.09 billion yen (an increase of 12.1% as compared to such sales revenues for the corresponding period of the previous fiscal year). Operating profit was 1.55 billion yen (a decrease of 31.9% as compared to such operating profit for the corresponding period of the previous fiscal year) due to negative impact of operating loss recorded at Wacoal China and Intimates Online, as well as one-time loss recorded at Wacoal Europe.

#### c. Peach John Business

In our Peach John Business, we aim to achieve a high profit level by promoting product development that captures consumer needs and by developing effective marketing strategies.

During the current cumulative second quarter, sales from our directly-managed stores exceeded the level for the corresponding period of the previous fiscal year due to the absence of negative impact of the closings of physical stores following the spread of COVID-19 seen during the corresponding period of the previous fiscal year, as well as our marketing measures which contributed to an increase in the number of customers visiting physical stores. On the other hand, although some of our marketing measures, including the casting of a popular male artist as our model and the collaboration project with the movie "ONE PIECE FILM RED", gained a certain level of publicity, our e-commerce sales fell below the level of the corresponding period of the previous fiscal year as the overall effectiveness of our marketing measures did not reach the expected level.

As a result of the above, revenue and operating profit attributable to our "Peach John Business" segment were 6.02 billion yen (a decrease of 1.4% as compared to such revenue for the corresponding period of the previous fiscal year) and 0.83 billion yen (a decrease of 23.1% as compared to such operating profit for the corresponding period of the previous fiscal year), respectively. Although operating profit decreased from the corresponding period of the previous fiscal year due to sharp increases in raw material prices and an increase in sales promotion expenses, we maintained a high level of profit.

#### d. Other

In our "Other" business segment, we are building a system that can continue to steadily generate profits by actively addressing unprofitable businesses and reassessing fixed costs, in order to achieve the core strategy aiming "to transform ourselves into a resilient corporate structure" under our mid-term business plan.

During the current cumulative second quarter, revenue from Lecien Corporation increased as a result of a recovery in sales of its own brand products, despite the weak sales of our private products sold by major apparel supply chain companies. In addition, revenue from Nanasai Co., Ltd. and Ai Co., Ltd. significantly increased on the back of a recovery in demand following the relaxation of COVID-19 restrictions.

As a result of the above, revenue and operating profit attributable to our "Other" business segment were 7.53 billion yen (an increase of 26.7% as compared to such revenue for the corresponding period of the previous fiscal year) and 0.05 billion yen (as compared to an operating loss of 0.27 billion yen for the corresponding period of the previous fiscal year). We recorded profit due to increased revenue and an improvement in profit structure resulting from a progress in reassessment of operations by each business entity, despite the expenses incurred in connection with the liquidation of a subsidiary of Lecien Corporation.

#### (2) Qualitative Information regarding Consolidated Financial Condition

#### (i) Assets, Liabilities and Total Shareholders' Equity

Our total assets as of the end of the current consolidated second quarter were 302,426 million yen, an increase of 3,249 million yen from the end of the previous fiscal year, mainly due to the increases in inventories and an increase in goodwill attributable to the depreciation of the Japanese yen, and an increase in investments accounted for using equity method, despite a decreased in cash and cash equivalents due to payments for purchase of treasury stock and repayment of borrowings.

Our total liabilities were 75,385 million yen, a decrease of 2,924 million yen from the end of the previous fiscal year, mainly due to a decrease in borrowings.

Equity attributable to owners of parent was 224,076 million yen, an increase of 6,086 million yen from the end of the previous fiscal year, mainly due to an increase in exchange differences on translation of foreign operations due to the effect of the depreciation of the Japanese yen.

As a result of the above, ratio of equity attributable to owners of parent as of the end of the current consolidated second quarter was 74.1%, an increase of 1.2% from the end of the previous fiscal year.

#### (ii) Cash Flows

Cash and cash equivalents as of the end of the current consolidated second quarter were 30,000 million yen, a decrease of 7,485 million yen from the end of the previous fiscal year.

(Cash Flow Provided by Operating Activities)

Cash flow provided by operating activities was 4,854 million yen, an decrease of 5,631 million yen as compared to the corresponding period of the previous fiscal year, after adjustments for changes in assets and liabilities to our profit of 4,283 million yen plus adjustments for depreciation and amortization expenses and income taxes payable.

(Cash Flow Used in Investing Activities)

Cash flow used in investing activities was 1,117 million yen, a decrease of 1,785 million yen as compared to the corresponding period of the previous fiscal year, due to purchase of property, plant and equipment and intangible assets.

(Cash Flow Used in Financing Activities)

Cash flow used in financing activities was 12,512 million yen, a decrease of 12,148 million yen as compared to the corresponding period of the previous fiscal year, due to repayment of borrowings, payments made for dividends and payments for purchase of treasury stock.

#### (3) Qualitative Information regarding Forecast of Consolidated Business Results

We have revised our forecast of consolidated business results for the fiscal year ending March 31, 2023 which we announced on May 13, 2022. For details, please see "Announcement of Revisions to the Forecast of Consolidated Business Results (IFRS)" which we announced today.

- (Note) 1. The "Other" category includes Lecien business, Nanasai business, and other business segments which are not included in the operating segment.
  - 2. The sum of the segment profit (loss) agrees to the operating profit on the condensed quarterly consolidated statement of profit or loss. For a reconciliation from operating profit (loss) to profit before income taxes and equity in net profit of affiliated companies, please see the condensed quarterly consolidated statement of profit or loss.
  - 3. The Company accounts for intersegment sales and transfers at cost plus an interest.

## (ii) Segment Information by Region

#### Revenue – external customers

	Previous Consolidated Cumulative Second Quarter (From April 1, 2021 to September 30, 2021)	Current Consolidated Cumulative Second Quarter (From April 1, 2022 to September 30, 2022)
Japan	54,233	61,797
Asia and Oceania	9,856	10,973
Americas and Europe	22,197	24,736
Total	86,286	97,506

<sup>(</sup>Note) 1. Countries or areas are classified according to locations of consolidated companies.

<sup>2.</sup> Of "Americas and Europe" category, revenue in the United States for the previous consolidated cumulative second quarter and current consolidated cumulative second quarter were 17,082 million yen and 18,199 million yen, respectively.

#### (First-time Adoption)

Starting from the current consolidated first quarter, our group began preparing our condensed quarterly consolidated financial statements in accordance with IFRS. Previously, our group prepared the financial consolidated statements for the fiscal year ended March 31, 2022 in accordance with U.S. GAAP. The date of transition to IFRS is April 1, 2021.

#### (1) IFRS 1 – Exemptions

In principle, IFRS requires companies that adopt IFRS for the first time (a "first-time adopter") to apply IFRS standards retrospectively. IFRS 1 *First-time Adoption of International Financial Reporting Standards* ("IFRS 1"), however, outlines certain mandatory and discretionary exemptions from retrospective application of IFRS standards. The effect of the application of these exceptions and exemptions is adjusted in retained earnings and/or other components of equity at the date of transition to IFRS. The exemptions adopted by our group upon transition from U.S. GAAP to IFRS are as follows:

#### - Business combinations

A first-time adopter may choose not to apply IFRS 3 *Business Combinations* ("IFRS 3") retrospectively to business combinations for which the acquisition date occurs prior to the date of transition to IFRS. Our group has applied such exemption and chosen not to apply retrospectively to business combinations that occurred prior to the date of transition. As a result, the amount of goodwill arising from business combinations prior to the date of transition is based on the carrying amount as of the transition date in accordance with U.S. GAAP.

Goodwill is tested for impairment as of the transition date, regardless of whether there is any indication of impairment.

#### - Deemed cost

IFRS 1 permits the use of fair value as of the date of transition to IFRS for property, plant and equipment, investment property and intangible assets as deemed cost as of that date. Our group uses fair value as of the date of transition for certain intangible assets as deemed cost under IFRS.

#### - Exchange differences on translation of foreign operations

IFRS 1 permits a first-time adopter to choose to deem the cumulative amount of the exchange differences on translation of foreign operations to be zero as of the date of transition to IFRS. Our group has chosen to deem the cumulative amount of the exchange differences on translation of foreign operations to be zero as of the date of transition to IFRS.

#### - Leases

Under IFRS 1, a first-time adopter may determine whether an arrangement contains a lease as of the date of transition to IFRS based on the facts and circumstances at the date of transition. It also permits to measure the lease liability at the present value of the remaining lease payments discounted at the lessee's additional borrowing rate as of the date of transition, and the right-of use asset at the same amount as the lease liability. Leases ending within 12 months from the date of transition and leases with small underlying assets may be recognized as expenses.

Our group has applied such exemption, and recognized and measured leases.

#### - Designation of previously recognized financial instruments

IFRS 1 permits classification in IFRS 9 *Financial Instruments* ("IFRS 9") to be based on facts and circumstances as of the date of transition, rather than on facts and circumstances existing at the time of recognition. In addition, it is permitted to designate equity financial assets as financial assets at fair value through other comprehensive income based on facts and circumstances existing as of the date of transition.

Our group has chosen the classification in IFRS 9 based on facts and circumstances existing as of the date of transition, and has designated certain equity financial assets as financial assets at fair value through other comprehensive income based on facts and circumstances existing as of the date of transition.

# - Fair value measurement of financial instruments at initial recognition

Our group has elected to apply prospectively the provisions of IFRS 9 on fair value measurement and recognition of gains or losses on initial recognition of financial assets and liabilities.

#### (2) IFRS 1 – Mandatory Exceptions

IFRS 1 prohibits retrospective application regarding "estimates", "derecognition of financial assets and financial liabilities", "hedge accounting", "noncontrolling interests" and "classification and measurement of financial instruments". Our group has applied prospectively these items from the date of transition.

#### (3) Reconciliations

The reconciliations required to be disclosed under IFRS upon first-time adoption are as follows.

The reconciliations include items which may not impact the retained earnings and comprehensive income under "reclassification", and items which may impact the retained earnings and comprehensive income under "recognition and measurement differences".

For reconciliations of equity as at the date of transition to IFRS (April 1, 2021) and as at the end of the previous consolidated fiscal year (March 31, 2022), as well as reconciliations of statement of profit or loss and statement of comprehensive income for the previous consolidated fiscal year (from April 1, 2021 to March 31, 2022), please see "2. Condensed Quarterly Consolidated Financial Statements and Accompanying Notes – (5) Notes to Condensed Quarterly Consolidated Financial Statements (First-time adoption)" on page 18 of "Consolidated Business Results for the First Quarter of the Fiscal Year Ending March 31, 2023" disclosed on August 10, 2022.

#### Notes to the Reconciliations

- (i) Reclassification
  - A. Certain financial instruments included in "time deposits" and "other current assets" that were separately presented under U.S. GAAP have been reclassified and presented as "other financial assets" under IFRS.
  - B. "Investment property", which was included in "Property, plant and equipment" under U.S. GAAP, is presented separately under IFRS.
  - C. "Painting", which was included in "Property, plant and equipment" under U.S. GAAP, has been reclassified and presented in "intangible assets" under IFRS as an asset with an indefinite useful life.
  - D. Items presented as "operating lease right-of-use assets", "short-term operating lease liabilities" and "long-term operating lease liabilities" under U.S. GAAP are presented as "right-of-use assets" and "lease liabilities" under current liabilities and non-current liabilities, respectively, under IFRS.
  - E. "Leasehold rights", which were included in "Other intangible assets" under U.S. GAAP, have been reclassified and presented as "Right-of-use assets" under IFRS.
  - F. "Accrued payroll and bonuses" and "Refund liability", which were separately presented under U.S. GAAP, have been reclassified and presented as "Other current liabilities" under IFRS.
  - G. "Contingent consideration (short-term)" included in "Notes and accounts payable Other payables" under Current Liabilities and "Contingent consideration (long-term)", which was separated presented under "Long-term liabilities" under U.S. GAAP have been reclassified and presented as Current Liabilities and as "other financial liabilities" under Non-current Liabilities", respectively, under IFRS.
  - H. Items presented in "Operating costs and expenses", "Other income (expenses)" under U.S. GAAP are recorded as "Finance income" and "Finance costs" for financial related gains and losses, while other items are presented as "Other income" and "other expenses" under IFRS.

#### (ii) Recognition and measurement differences

The following adjustments are prorated to the related noncontrolling interests.

- a. Fair value measurement of equity instruments
  - Valuation gains (losses), gains (losses) on sales, and impairment charges with respect to equity instruments are recognized in net income or loss under U.S. GAAP, whereas changes in fair value are recognized in other comprehensive income under IFRS expect for certain issues.
- b. Adjustment of recorded amount of property, plant and equipment
  - Under U.S. GAAP, an impairment charge is recognized only when there is an indication that the total undiscounted future cash flows expected from the use or eventual disposition of an asset (group) are less than its carrying amount. On the other hand, under IFRS, if there is an indication of impairment, an impairment charge is recognized when the recoverable amount of an asset (group) is less than its carrying amount.
- c. Adjustment of recorded amount of intangible assets

For certain intangible assets, the fair value of the transition date is used as deemed cost.

d. Adjustment of recorded amount of investments accounted for using equity method

Under U.S. GAAP, a loss is recognized when a series of losses or elements of the investee's investment that indicate an other-than-temporary decrease in the value of the investment have occurred. On the other hand, under IFRS, an impairment charge is recognized if there is objective evidence of impairment after the application of the equity method.

#### e. Uniformity of reporting periods

Certain consolidated subsidiaries and equity method affiliates that have a different fiscal year-end from that of the Company have been unified in their reporting periods to match the Company's fiscal year-end as of the date of transition.

#### f. Adjustment related to retirement benefit accounting

Under U.S. GAAP, actuarial gains and losses and prior service cost are recognized in other comprehensive income when incurred and amortized in subsequent periods. On the other hand, under IFRS, actuarial gains and losses (remeasurement of defined benefit plans) are recognized in other comprehensive income when incurred and immediately transferred to retained earnings. In addition, past service costs are recognized immediately as part of retirement benefit expenses.

#### g. Transfer of exchange differences on translation of foreign operations

Upon first-time adoption, we elected the exemptions provided in IFRS 1 and transferred all cumulative translation differences at the date of transition to retained earnings.

#### h. Adjustment related to recognition of levies

Items corresponding to property tax levies that the Company and certain consolidated subsidiaries are obligated to pay were recognized over the fiscal year in which they were paid under U.S. GAAP, but are recognized in IFRS on the date the event giving rise to the obligation occurs. The amount required as of the transition date is recognized as liability in "Trade and other payables" and adjusted to retained earnings as of the date of transition.

#### i. Adjustment for recognition of other long-term employee benefit obligations

For long-term employee benefit plans adopted by certain consolidated subsidiaries, which were not recognized under U.S. GAAP, the present value of the projected payments as of the date of transition is included in "Other current liabilities" and "Other non-current liabilities" as a liability and adjusted to retained earnings on the date of transition. The net change in such liabilities is recognized as "Selling, general and administrative expenses" and "cost of sales" under IFRS.

j. Recognition of right-of-use assets and lease liability, adjustment of recorded amount of right-of-use assets Leases accounted for as "operating leases" under U.S. GAAP were remeasured in accordance with IFRS 16 as of the date of transition and adjusted to retained earnings on the date of transition.

#### k. Tax effect adjustments

Changes in deferred tax assets (deferred tax liabilities) occurred due to temporary differences arising (or eliminated) as a result of IFRS adjustments, etc. In addition, with respect to the tax effects of unrealized intragroup transactions, deferred tax assets are recognized under IFRS at the tax rate of the seller, whereas under U.S. GAAP, the tax expense was recognized at the source of sale.

#### 1. Adjustment to retained earnings

(Millions of Yen)

	Previous consolidated second quarter (September 30, 2021)
a. Fair value measurement of equity instruments	(22,516)
