During the current fiscal year (April 1, 2025 – March 31, 2026), the domestic business environment is expected to maintain a gradual recovery trend due to improvements in employment and income conditions, as well as the effects of various policies. However, the outlook became uncertain due to fluctuations in financial and capital markets, the escalating tensions in the Middle East, and developments in U.S. trade policies. Outside Japan, while the United States continued to experience a gradual economic expansion, the pace of the economic expansion declined partly due to a slowdown in personal consumption, associated with rising price risks resulting from soaring energy prices and supply constraints. Europe saw signs of recovery, particularly in export-related sectors; however, soaring energy prices became a headwind, and this recovery remained gradual. In China, while there were signs of recovery partly due to policy effects, the recovery in personal consumption is somewhat slow. As such, the economic conditions surrounding us have become varied across different regions.

Under such circumstances, our group has continued to promote the initiatives of “business model reforms to improve profitability,” “growth strategy to achieve VISION2030,” “introducing of return on invested capital (“ROIC”) management” and “promoting of asset reduction.” In Japan, the core brand “WACOAL” shifted to a recovery trend in the second half of the year due to the effects of certain initiatives. Additionally, the high-priced “Salute” brand saw strong performance with its revival line chosen by customer votes, significantly surpassing the previous year’s levels. These results reflect the success of product and promotion strategies. Additionally, the conditioning wear brand “CW-X,” maintained strong performance. The increased exposure from Shohei Ohtani wearing the products contributed to this success, with significant growth seen in arm supporters. As part of our customer strategy, our “Bra Recommendations Based on Body Type,” which we began offering on our own e-commerce website in July 2025, surpassed a cumulative total of 500,000 unique users by March 31, 2026, providing a personalized shopping experience to many customers. Outside Japan, the Bravissimo Group Limited (the “Bravissimo Group”) in the United Kingdom, which was affected by a logistics warehouse fire in June 2025 (\*1), worked towards an early recovery of its logistics system. It gradually resumed shipping orders from our e-commerce website in September, and by February, the affected logistics warehouse was completely restored. Additionally, in the United States, aiming to expand sales, capture market share in the plus-size segment, and improve profitability, we decided to acquire Glamorise Foundations, Inc. (“Glamorise”) through Wacoal Direct Corp., a subsidiary of Wacoal International Corp. (U.S.), on March 30, 2026. (\*2) Glamorise is a brand specializing in the plus-size segment and holds a different market position from Wacoal International Corp. (U.S.). Additionally, a significant portion of its sales comes from the e-commerce channel, which will accelerate the growth of our e-commerce business in the United States. The impact of this acquisition on the consolidated financial results for the current fiscal year is immaterial. In addition, we continued striving to improve asset efficiency by selling the Shin-Kyoto Building and repurchasing treasury stock, among other measures.

With respect to revenue, in addition to stagnant sales from our women’s innerwear products in major countries, following a reevaluation of our business portfolio from the previous fiscal year to the current fiscal year, and as a result of selling some of our underperforming businesses, there was a negative impact on revenue in the current fiscal year. In terms of profits, our gross profit margin improved due to a higher retail sales ratio resulting from the handling of underperforming businesses and the acquisition of the Bravissimo Group, as well as cost control measures implemented at each operating company. While the gain on sale of property, plant and equipment related to the sale of the Shin-Kyoto Building (19,545 million yen), as described above, contributed to an increase in operating profit, we reevaluated the value in use of the goodwill related to Wacoal Europe Ltd. in light of slowing market growth and pressure on operating profit due to U.S. tariffs and an increase in selling, general and administrative expenses caused by inflation, and recorded an impairment charges of 1,006 million yen.

As a result of the above, for the current fiscal year, consolidated revenue was 171,510 million yen (a decrease of 1.4% as compared to the previous fiscal year), consolidated business loss was 461 million yen (as compared to a business loss of 3,437 million yen for the previous fiscal year), consolidated operating profit was 19,877 million yen (an increase of 504.5% as compared to the previous fiscal year), consolidated profit before tax was 19,653 million yen (an increase of 246.0% as compared to the previous fiscal year), and consolidated profit attributable to owners of parent was 13,124 million yen (an increase of 81.8% as compared to the previous fiscal year).

The key exchange rates used for the current fiscal year (the previous fiscal year) were: 150.77 yen (152.58 yen) to the U.S. dollar; 202.10 yen (194.61 yen) to the Pound sterling and 21.25 yen (21.10 yen) to the Chinese yuan.

a. Wacoal Business (Domestic)

During the current fiscal year, results varied across brands, business segments, and channels. Wacoal Corp., our core business company, was affected by the closing of physical stores and a decrease in customer visits. However, its revenue exceeded that of the previous fiscal year due to the growth of its e-commerce business and the success of product and promotional strategies for certain brands. On the other hand, the sluggish performance of our sales companies, Unenana Cool Corp. and Linge Noel Co., Ltd., impacted the segment overall, resulting in revenue falling below the level of the previous fiscal year.

With respect to brand trends, sales from “CW-X” brand, which strengthened promotions and expanded the number of stores, “GOCOCi” brand, which mainly offers wireless bras, and “Wing” brand, whose “Synchro Bra Top”

continues to receive positive feedback, and the high-priced “Salute” brand all exceeded the levels of the previous fiscal year. “WACOAL,” which underwent rebranding in the previous fiscal year, also began to show signs of recovery from the second half of the fiscal year. Furthermore, sales in the SPIRAL Business grew, driven by strong performance from new store openings. On the other hand, sales from “AMPHI” brand, which mainly operates directly managed stores, as well as from Unenana Cool Corp., Linge Noel Co., Ltd., and our nightwear products which are mainly sold at department stores, remained stagnant due to the impact of store closures, downsizing of sales floor space, and a decline in the number of customers visiting retail stores.

By sales channel, while the impact of store closures by wholesale customers is on a declining trend, sales continue to be sluggish due to the significant impact of a decline in the number of customers visiting physical stores. On the other hand, sales from both our own e-commerce websites and third-party e-commerce websites continue to achieve strong growth, which compensates for the struggles faced by physical stores.

As a result of the above, revenue attributable to our “Wacoal Business (Domestic)” segment was 87,723 million yen (a decrease of 0.1% as compared to such revenue for the previous fiscal year). Operating profit significantly increased to 18,791 million yen (an increase of 532.7% as compared to such operating profit for the previous fiscal year), due to the gain on sale of property, plant and equipment related to the sale of the Shin-Kyoto Building.

b. Wacoal Business (Overseas)

During the current fiscal year, revenue from Wacoal International Corp. (U.S.) fell below the level of the previous fiscal year due to market shrinkage for physical stores, in addition to the growth of the e-commerce business being less than expected. By sales channel, sales from our stores in department stores continued to face challenges due to the impact of store closures by major wholesale customers. While sales to consumers remained strong, e-commerce delivery was sluggish due to severe purchase restraints on major e-commerce platforms. Since the tariff rate on brassiere imports from the Dominican Republic, our main production base, was reduced to 0% effective at the end of February 2026, the impact of soaring costs resulting from tariffs has been declining since then.

Revenue from Wacoal Europe Ltd. increased from the level of the previous fiscal year due to the contribution of sales from the Bravissimo Group, which we acquired in September 2024. A fire at a logistics warehouse in June 2025 led to a negative impact on revenue. However, this logistics warehouse is covered by fire insurance, and the insurance payments covered the majority of not only the physical loss and damage to property such as inventory and buildings, but also the lost profits resulting from the suspension of shipments and inventory shortages.

Wacoal China Co., Ltd. continued to face challenging conditions at both our retail stores and e-commerce websites due to consumers’ growing price sensitivity. We have been renovating stores to update the storefront image and promoting full-price sales to improve profit margins and highlight our brand value among other initiatives, and have achieved some success; however, these measures have not yet yielded the desired results, and sales were lower than the previous fiscal year.

As a result of the above, revenue attributable to our “Wacoal Business (Overseas)” segment was 68,468 million yen (an increase of 1.8% as compared to such revenue for the previous fiscal year). Operating profit was 488 million yen (an increase of 16.5% as compared to such operating profit for the previous fiscal year) due to recording one-time expenses related to the acquisition of Glamorise and an impairment charges on goodwill related to Wacoal Europe Ltd.

c. Peach John Business

During the current fiscal year, our communication measures and product strategies focused on strengthening the acquisition of new customers continued to be effective from the previous fiscal year, leading to growth in sales across all sales channels, particularly in e-commerce. In terms of products, sales from our standard products such as the “Nice Body Bra” series drove overall sales, and the “Ribbon Motif Bra” and nightwear, which featured celebrities for the autumn/winter season, also expanded steadily. In addition, discount sales remained strong, helping to underpin overall performance.

As a result of the above, revenue attributable to our “Peach John” segment was 11,144 million yen (an increase of 6.4% as compared to such revenue for the previous fiscal year). Operating profit was 149 million yen (as compared to an operating loss of 266 million yen for the previous fiscal year).

d. Other

Revenue attributable to our “Other” business segment was 4,175 million yen (a decrease of 50.1% as compared to such revenue for the previous fiscal year) due to the exclusion of Nanasai Co., Ltd. and Lecien

Corporation from the scope of our consolidation. On the other hand, operating profit significantly increased to 449 million yen (an increase of 172.1% as compared to such operating profit for the previous fiscal year) due to the contribution of certain business transfers at our consolidated subsidiary (\*3).

Under “VISION 2030,” our medium- to long-term management strategy framework, our group has established the following vision for the medium to long term: “to evolve and grow as ‘Global Wacoal Group’ by providing both physical and emotional beauty and richness to individuals through high sensitivity and premium quality.” For the fiscal year ending March 31, 2027, we will continue to steadily implement four initiatives that are key strategies of VISION 2030: “improve domestic profitability and expand our business areas,” “expand overseas businesses and transform them into highly profitable structures,” “strengthen the Group’s management capabilities,” and “shift to more capital-efficient management.” In doing so, we aim to achieve sustainable growth and enhance corporate value.

In our domestic business, we will strengthen the “CW-X” brand and develop new sales channels, while also expanding customer contact points and enhancing sales capabilities by leveraging customer data through digital services. In addition, we will advance supply chain reforms and continue cost structure reforms as we work to restore our core profitability. Furthermore, we have established a dedicated “Transformation Office” team reporting directly to the President. This office will strengthen monitoring of these initiatives and reforms and will lead cross-organizational efforts to resolve issues as they arise, thereby improving the effectiveness of our efforts to achieve our goals.

In our overseas business, as the uncertain business environment persists, we will review our existing structure and reorganize into a two-division system covering Europe and the Americas, and China and Asia. This will enable us to advance area-specific strategies, accelerate decision-making, and strengthen governance. At the same time, we will promote e-commerce growth by expanding customer contact points through digital marketing and other initiatives, while working to improve profitability and strengthen competitiveness by generating synergies through PMI for acquired companies.

Based on the above-described initiatives, we expect consolidated results for the fiscal year ending March 31, 2027, to be as follows: revenue of 187.6 billion yen, business profit of 0.5 billion yen, operating profit of 1.5 billion yen, profit before tax of 2.6 billion yen, and profit attributable to owners of parent of 1.8 billion yen. We expect our revenue to increase as a result of strengthening product competitiveness and developing new channels in Japan, as well as the effects of acquisitions and other factors overseas. While we expect an increase in business profit due to increased revenue, we expect a significant decline in operating profit due to a reversal from the recording of gain on sale of property, plant and equipment and other items in the previous fiscal year. We formulated our plan for the fiscal year ending March 31, 2027 using the key exchange rates of 155.00 yen to the U.S. dollar; 210.00 yen to the Pound; and 22.00 yen to the Chinese yuan.

The outlook for the next fiscal year by segment is as follows. Our group will change the classification method for its reportable segments from the fiscal year ending March 31, 2027, following the reorganization of the company into supply chain management units to promote ROIC management. Additionally, segment profit will be changed from operating profit to business profit. The results for the previous fiscal year are presented using the new classification method for reference purposes.

## (2) Explanation Related to Consolidated Financial Condition

## (i) Assets, Liabilities and Total Shareholders' Equity

Our total assets as of March 31, 2026 were 292,315 million yen, an increase of 19,570 million yen from the end of the previous fiscal year, mainly due to an increase in cash and cash equivalents.

Our total liabilities were 79,870 million yen, an increase of 2,245 million yen from the end of the previous fiscal year, mainly due to increases in income taxes payable and deferred income taxes, despite decreases in borrowings and trade and other payables.

Equity attributable to owners of parent was 209,598 million yen, an increase of 17,551 million yen from the end of the previous fiscal year, mainly due to an increase in retained earnings due to the sale of the Shin-Kyoto Building.

As a result of the above, ratio of equity attributable to owners of parent as of March 31, 2026 was 71.7%, an increase of 1.3% from the end of the previous fiscal year.

## (ii) Cash Flows

Cash and cash equivalents as of March 31, 2026 were 44,170 million yen, an increase of 20,751 million yen from the end of the previous fiscal year.

(Cash Flow Provided by Operating Activities)

Cash flow provided by operating activities was 8,346 million yen, an increase of 3,381 million yen as compared to the previous fiscal year, after adjustments to our net profit of 12,941 million yen for changes in assets and liabilities, depreciation, amortization, income tax expense and other items.

(Cash Flow Provided by Investing Activities)

Cash flow provided by investing activities was 36,097 million yen, an increase of 26,715 million yen as compared to the previous fiscal year, mainly due to proceeds from sale of property, plant and equipment.

(Cash Flow Used in Financing Activities)

Cash flow used in financing activities was 26,145 million yen, an increase of 3,193 million yen as compared to the previous fiscal year, mainly due to repurchase of treasury stock.

(3) Basic Policy Regarding Distribution of Profits and Dividends for Fiscal Year 2025 and Fiscal Year 2026

Our basic policy on profit distributions to shareholders is to make stable distributions based on consideration of our consolidated business results, while seeking to increase net income per share by enhancing our corporate value through active investments aimed at improving profitability.

From the viewpoint of increasing our corporate value, we intend to use retained earnings for strategic investments to maintain competitiveness and to enhance growth, such as expansion and fulfillment of customers relations domestically and in overseas, in order to benefit our shareholders by improving future profitability. Based on the above, we plan to distribute 50.00 yen per share as a year-end dividend for the current fiscal year, the same amount as the estimated dividend announced during the latest quarter. The total annual cash dividend per share will be 100.00 yen, including the interim dividend per share of 50.00 yen.

For the fiscal year ending March 31, 2027, we plan to declare, based on the above policy, an annual cash dividend per share of 100.00 yen, composed of an interim dividend per share of 50.00 yen and a year-end dividend per share of 50.00 yen.

## 2. Basic Policies regarding Selection of Accounting Standards

Our group adopts the International Financial Reporting Standards (IFRS) in order to improve international comparability and convenience of financial information in the capital markets.
