<https://www.wacoalholdings.jp/en/>**Overview of the corporate governance at Wacoal Holdings Corp. (the "Company").****I. Basic Concepts, Capital Structure, Corporate Attributes and other Basic Information on Corporate Governance****1. Basic Concepts****(1) Management Philosophy of Wacoal Group
"Mutual Trust"**

Our business activities are built upon "relationships of mutual trust" based on listening to the voice of each and every one of our customers, and by continually transforming our business with humility. This spirit of "mutual trust" is our starting point and has been our management philosophy since our establishment.

(2) Basic Policy on Corporate Governance

The basic policy and purpose of our Group's corporate governance is to continuously enhance our corporate value by increasing transparency and ensuring the fairness and independence of our corporate management in order to build "mutual trust" in relationships with every stakeholder, including shareholders, customers, employees, business partners, and the local community.

【Reasons for Not Implementing Certain Principles of Corporate Governance Code】

<Principle 1.4>

- In order to enhance our medium- to long-term corporate value, we may hold shares of other companies as cross-shareholdings for the purpose of maintaining and enhancing our transactional relationships, building, maintaining and enhancing our cooperative and transactional relationships for business expansion, or maintaining stable financial transactions.
- We will examine whether the purpose of a cross-shareholding is appropriate from a medium- to long-term perspective and whether the benefit and risks related to such cross-shareholding are appropriate given the capital cost, and will report to the Board of Directors on a periodic basis. The Board of Directors will assess whether such shareholding contributes to the enhancement of our medium- to long-term corporate value based on the outcome of such examination, and will decide on whether to continue the cross-shareholding or to dispose of such shares. If our holding of any shares loses its significance, we will dispose of and reduce as appropriate our holding of such shares after considering the circumstances of the issuer.
- In voting any of the shares held for cross-shareholding purposes as to any agenda item, we will determine whether or not to vote in favor of such agenda item after closely examining comprehensively whether the relevant vote would contribute to the enhancement of the issuer's and our corporate value, while fully respecting the issuer's management policy. A close due diligence review will be performed in case an issuer releases losses for certain consecutive periods, its shareholder value is significantly damaged as a result of reorganization, or there is a matter of serious concern regarding the issuer's corporate governance such as a corporate scandal.

Policy for Determining the Amount or Calculation Method of Compensation

Updated

Yes

Details of Disclosure on Policy for Determining the Amount or Calculation Method for Compensation

Our compensation for executives consists of “basic compensation” the amount of which is fixed, “performance-based bonus” that is linked to the business results of each fiscal year, and “share-based stock option incentive” which is an incentive from a mid-to-long term viewpoint. Only the “basic compensation” payable in a fixed amount is paid to the Independent Outside Directors and Auditor & Supervisory Board Members, who are independent from the execution of business.

<Basic compensation>

The amount of basic compensation is set according to the title of each executive. Even for the same title, however, the amount of compensation payable in a relevant year will be increased within a certain range according to the degree of contributions by executives to the business results in the previous fiscal year. The level of compensation is set according to the business results and scale of the Company based on comparison with other companies within the same industry or of the same scale regarding the appropriateness of the compensation level in reference to the results of compensation surveys conducted each year by an outside organization.

The amount of the basic compensation for Directors is determined by the Board of Directors' meeting through deliberations and resolutions at a meeting of the Executive Compensation Advisory Committee, and that paid to Auditor & Supervisory Board Members is decided through discussions by Audit & Supervisory Board.

<Performance-based bonus>

The amount of performance-based bonus is determined based on the rate of achieving the reference value of consolidated operating income for a single fiscal year with other business results taken into account in order to enhance the degree of the linkage with consolidated business performance. The reference value of consolidated operating income has been set at 13.5 billion yen in reference to the business results and other factors in the past. The amount of performance-based bonus is fixed by the Board of Directors' meeting based on deliberations and resolutions at a meeting of the Executive Compensation Advisory Committee and determined through a resolution at a General Meeting of Shareholders. In addition, the method of calculating performance-based bonus will be constantly reviewed to improve its transparency.

<Share-based stock option incentive>

The amount of share-based stock option incentive is determined by a resolution of the Board of Directors' meeting based on the monthly amount of the basic compensation and the fair value of stocks that have been decided in accordance with reports issued by the Executive Compensation Advisory Committee.

The maximum annual amounts of basic compensation paid to Directors and Audit & Supervisory Board Members were determined to be 350 million yen (excluding the amount of employee's salary for Directors who concurrently serve as employees) and 75 million yen, respectively, by a resolution adopted at the 57th Ordinary General Meeting of Shareholders held on June 29, 2005. The number of Directors when the resolution was passed was seven (7). The amount of performance-based bonus is determined according to the business results of each fiscal year by a resolution at the Ordinary General Meeting of Shareholders held for the relevant year. Further, the maximum annual amount of stock options was determined to be 70 million yen by a resolution adopted at the 60th Ordinary General Meeting of Shareholders held on June 27, 2008. The number of Directors when the resolution was approved was eight (8).

The ratio of basic compensation, performance-based bonus, and stock options is as follows (when performance-based bonus is calculated as per the reference value of consolidated operating income):

Basic compensation: 71%; Performance-based bonus: 18%; Stock options: 11%

The retirement allowance system of officers was abolished by a resolution adopted at the 57th Ordinary General Meeting of Shareholders held on June 29, 2005.

2. Matters Concerning Functions of Business Execution, Audits/Supervision, Nomination and Decisions etc. Compensation (Outline of Current Corporate Governance System)

Updated

1. Outline of Current System

We, as a holding company, use an "Audit & Supervisory Board system" for the purpose of maintaining the corporate governance of Group companies. We require that both the Board of Directors and the Audit & Supervisory Board monitor and supervise the management of the Company.

Our Board of Directors is composed of eight (8) Directors (one of which is a female Director), including three (3) Outside Directors. The role of our Directors is to supervise and make business judgements from an objective perspective. We have been working to enhance the supervisory function and to improve the decision-making process. The term of office of each Director is one year, which defines the responsibilities of our management and establishes a management system that can respond quickly to changes in the business environment.

In addition to the supervisory function of the Board of Directors, the Audit & Supervisory Board is composed of five (5) Audit & Supervisory Board Members, including three (3) Outside Audit & Supervisory Board Members. The function of our Audit & Supervisory Board is to monitor and supervise our management.

We, as a holding company, seek to govern our Group companies in connection with business execution, audits and supervision of management as set out below:

- The Board of Directors holds a regular Board of Directors' meeting every month and also holds special Board of Directors' meetings from time to time as necessary, in accordance with the Regulations of the Board of Directors, to make decisions on matters concerning important business such as management policy and management strategy, and matters stipulated by laws, ordinances or our Articles of Incorporation. Further, we have established a "Group Management Meeting" comprising our Directors and core management members, which examines matters concerning the management strategy of our Group and other important management issues and conducts preliminary reviews of matters for review by our Board of Directors.
- The Audit & Supervisory Board holds an Audit & Supervisory Board's meeting every month in conjunction with a regular Board of Directors' meeting and also hosts special Audit & Supervisory Board's meetings from time to time as necessary, in accordance with the Regulations of the Audit & Supervisory Board, to make decisions on matters concerning policies on preparation of audit reports and implementation of audits, methods of examining the statuses of business performance and assets, and other matters related to business execution by Audit & Supervisory Board Members.
- The Executive Nomination Advisory Committee and the Executive Compensation Advisory Committee, the majority of which consist of Outside Directors with Independent Outside Director Mr. Tsunehiko Iwai designated as chairman, were each established as an advisory body to discuss and provide recommendations on the nomination, promotion, and compensation of Directors, and matters resolved at such Committees' meetings are reported to the Board of Directors. As a general rule, each meeting of the Executive Nomination Advisory Committee is held on the day of the Board of Directors' meeting in January of each year, and each meeting of the Executive Compensation Advisory Committee is held on the day of the Board of Directors' meeting in April, July, and February of each year. Such Committees are operated with a high degree of transparency and fairness pursuant to resolutions approved unanimously with all members in attendance.
- The meeting of Independent Outside Officers, which consists mainly of Independent Officers, evaluates the Board of Directors by exchanging opinions on the Board of Directors. After the contents of the meeting have been reported to the Board of Directors, information is disclosed in corporate governance reports.
- In order to improve our system of compliance, we have established a Corporate Ethics and Risk Management Committee, for which our President and Representative Director acts as administrative manager and the Director of Supervisor of Group Business Management acts as chairman, which will consider any compliance issues which may have a material impact on the Wacoal Group, enhance awareness and enlightenment on corporate ethics and effectively promote control of any management risks on the Wacoal Group
- With respect to our accounting audits, an accounting audit agreement has been executed between the Company and Deloitte Touche Tohmatsu LLC ("Tohmatsu") pursuant to the Companies Act and the Financial Instruments and Exchange Act. There are no special relationships between the Company and Tohmatsu or any of the partners of Tohmatsu who have been engaged in the audit of the Company. The names of the certified public accountants who were engaged in the audit of the Company and the number of the assistants for audit services for the fiscal year ended March 2019 are as follows:

2. Functions and Roles of Outside Directors

Each such person takes a role in improving the appropriateness of the decision making by the Board of Directors by giving objective and independent advice based on their long careers in each business area and extensive professional knowledge.

3. Initiatives to Strengthen Functions of Audit & Supervisory Board Members

Under our system of having an Audit & Supervisory Board with 2 Standing Audit & Supervisory Board Members and 3 Outside Audit & Supervisory Board Members, an audit is conducted not only from the perspective of illegality but also of appropriateness. The Audit & Supervisory Board holds a regular Audit & Supervisory Board meeting every month in conjunction with the regular Board of Directors' meeting, and also holds a special Audit & Supervisory Board meeting from time to time as necessary. The Standing Audit & Supervisory Board Member mainly leads the audits and determines the assignment of tasks pursuant to the annual audit plan. For the purpose of such audits, the Audit & Supervisory Board Members may make requests to the audit office regarding any matters that are required to provide audit services. We also make efforts to conduct an appropriate audit regarding accounting in cooperation with the Accounting Auditor.

A person who has accounting experience at our Accounting Department and who has a respectable degree of finance and accounting knowledge has been elected as one of our Standing Audit & Supervisory Board Members. Further, with respect to our three (3) Outside Audit & Supervisory Board Members, we have elected a certified public accountant having a considerable degree of finance and accounting knowledge, an independent attorney-at-law, and a person with many years of experience and profound knowledge as business administrator in financial services, each of whom maintains a high degree of independence and uses their respective knowledge and experience to strengthen our audit system.

3. Reasons for Using the Current Corporate Governance System

We have adopted a governance system composed of a "Board of Directors" consisting of Directors who are experts in each business area and Outside Directors with diverse careers, and an "Audit & Supervisory Board" including Outside Audit & Supervisory Board Members. We, as a holding company, believe that this governance system is effective in supervising and auditing the execution of duties at our group companies and to realize and maintain high-quality management. 2. Other Matters Concerning Corporate Governance System

Updated

The following is an overview of the Company's internal system for timely disclosure:

1. Basic Stance on Timely Disclosure

We enacted the corporate ethics regulations "Wacoal's Code of Conduct" pursuant to the ideas that the Company "stands with the support of society" and "focuses on management with business integrity and pride," which our founder and current top management believe to be the starting point of management, and with the aim that these ideas form the basis for the specific code of conduct for all officers and employees in their overall business activities.

In order for everyone to share awareness of this code of conduct, we provide practical training on corporate ethics for management-level employees, and such management-level employees provide guidance to general employees. The content of the descriptions on the information disclosure is as follows.

- "An act to disclose only information that is favorable to Wacoal and to hide any information that is inconvenient to Wacoal would damage transparency and would mislead investors when making judgments."
- "Wacoal will timely and properly disclose any information required by stakeholders, in addition to significant facts as stipulated by the Financial Instruments and Exchange Act, irrespective of the effects on share price. We will ensure reliability by enhancing the transparency of management related information."
- "We will not share any material information obtained during the course of our business with a third party, including any relatives. Any trading of shares prior to the disclosure of relevant facts (insider trading) is strictly prohibited."

2. Internal System and Operation of Timely Disclosure

The handling of material financial information and non-financial information that is subject to timely disclosure is as follows:

(1) Analysis of Timely Disclosure of Information

- Statutory disclosure items under the Financial Instruments and Exchange Act and material facts prescribed in the timely disclosure rules of stock exchanges
- Material information deemed necessary to be disclosed (information that is reasonably expected to have a material influence on investment decisions by investors)

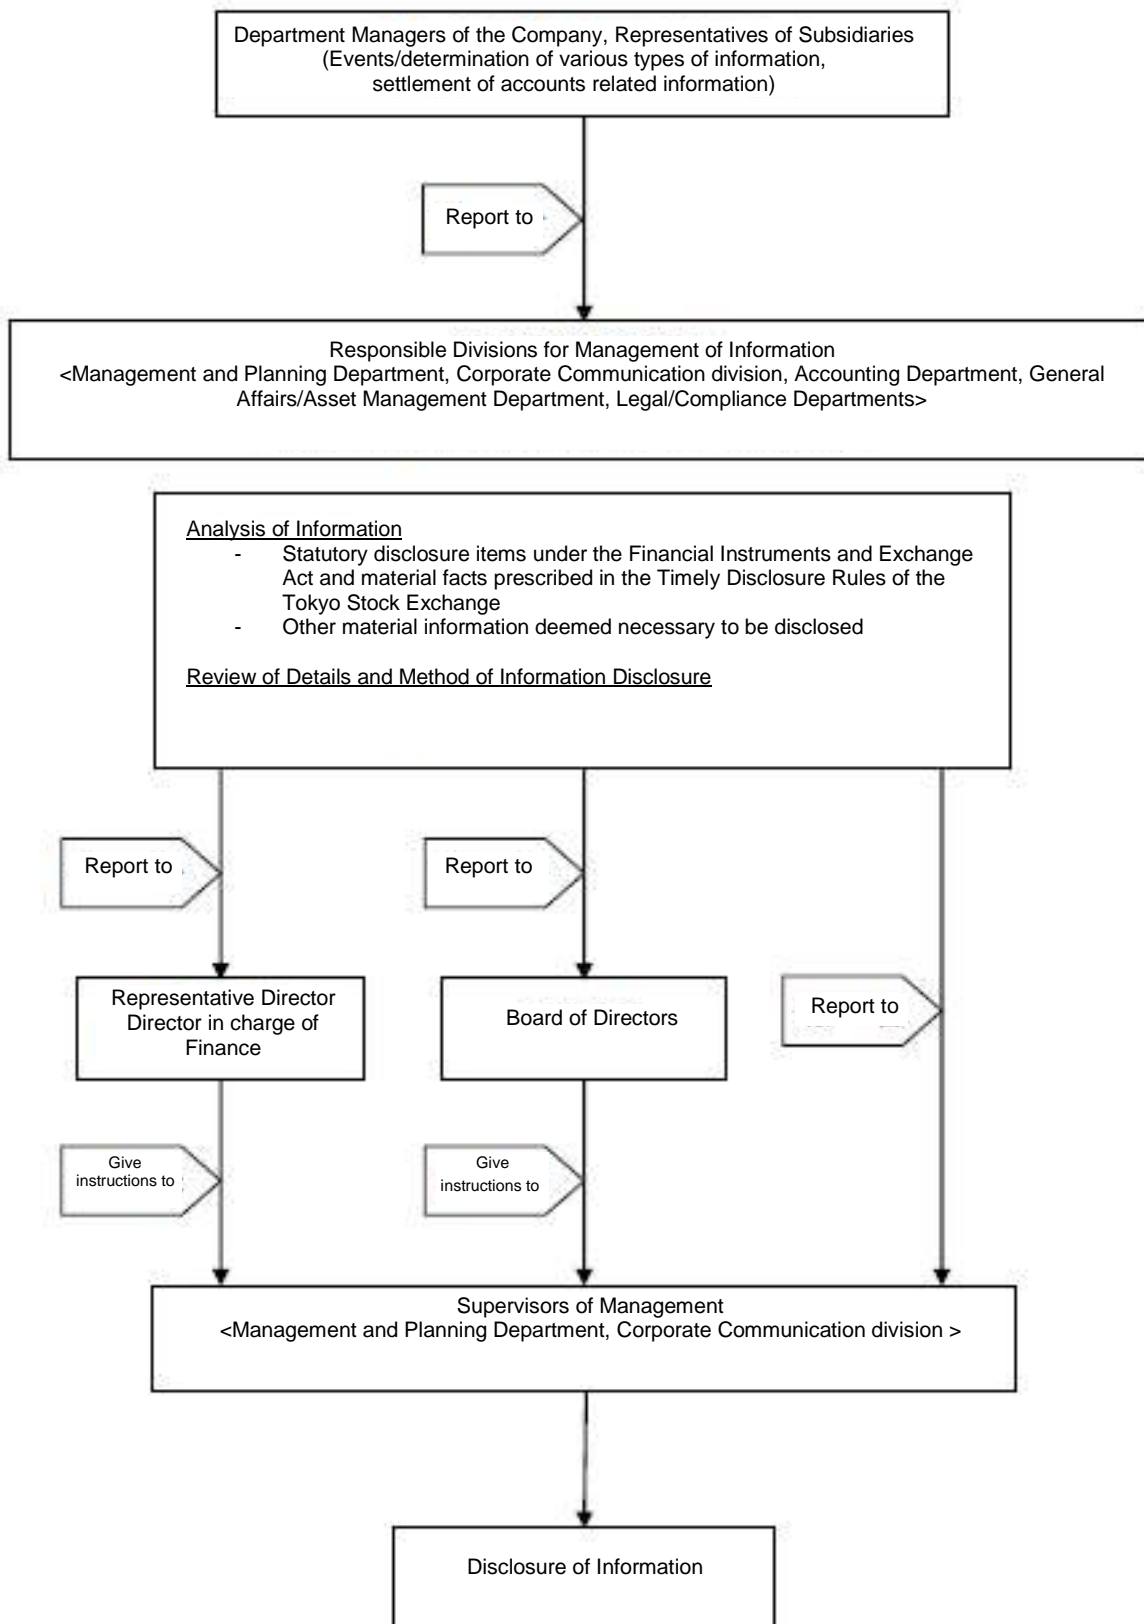

(2) Internal System

The Management and Planning Department, Corporate Communication division, Accounting Department, General Affairs/Asset Management Department, and the Legal/Compliance Department are the responsible divisions for the management of information that is subject to timely disclosure. These departments follow the "Basic Policy on Information Disclosure" which was internally prescribed by the Company and promptly disclose information after determination or occurrence of relevant facts. Information related to financial results is disclosed, in principle, on the day of occurrence with the approval of the Board of Directors. Any facts that were determined or that occurred at our subsidiaries are reported to the Management and Planning Department by the representatives of such subsidiaries and are disclosed through the same procedures.

The Management and Planning Department controls information regarding the determination of material policies of the Company and operations related to settlement of accounts, and also any events and facts, together with Corporate Communication division, the Accounting Department and the General Affairs/Asset Management Department. Also, the Legal/Compliance Department makes judgments regarding the importance of various information from a legal perspective and acts as the point of contact for the communication with the Tokyo Stock Exchange and the Financial Services Agency upon disclosure of such information.

Further, in order to judge the appropriateness of the information disclosure, we have established an audit office which is under direct control of the President for the comprehensive operation of the Company's internal system for timely disclosure.
