## With the intensifying trend toward selective consumption, results are different for each channel and brand

> By brand, sales of high-end brands such as Yue and Salute were strong, while sales of the mainstay brands Wacoal and Wing struggled
$>$ By channel, while e-commerce channels of our company and other companies grew, physical store channels were sluggish
$>\quad$ The reduction of sales promotion measures at some of our business partners (mass retailers) also affected in-store sales

## Leveraging our customer base

Purchases by member customers were surpassed YoY, while purchases by non-member customers were sluggish

Based on the purchasing trends of member customers from YoY through Q1 of the Mar. 2024 term, we plan to review KPIs such as the
memsures (to be announced during the review of the medium term management plan)

| Customer attributes |  | Purchase amount YoY | Ratio |
| :---: | :---: | :---: | :---: |
| Member customers | Existing members | +15\% | 23\% ( + 4pt) |
|  | Returning members* | +18\% | 6\% ( + 1pt) |
|  | New members | + $7 \%$ | 15\% ( + 1pt) |
| Purchase amount by non-member customers |  | -11\% | 56\% (-6pt) |

* Members with no purchase records in the previous fiscal year

## Cost reductions in line with sales trends exceeded our cautious estimates

> Although there was a decrease in personnel costs associated with the implementation of the special operation of the flexible retirement system in the previous fiscal year, income decreased due to a failure to absorb the impact of lower sales and soaring cost of sales due to foreign exchange rates and other factors
> Our initial plan was exceeded, which was carefully estimated based on cost trends

## Progress of the restructuring of Wacoal's earnings structure

Compared to FY2020 reduction in SG\&A expenses (excluding the impact of the change in revenue recognition )

## 1.9 billion yen

## Expense optimizing is progressing through cost control based on sales and personnel planning progress

> Personnel expenses decreased due to the implementation of the special operation of the flexible retirement system in the previous fiscal year
> In light of the difficult sales situation, we implemented thorough cost management.
> SG\&A ratio improved ( -0.5 pt from the previous fiscal year), remaining high due to the sluggish movements of the top line

Note: Created on the basis of data before consolidation adjustment.

## Sales increased due to strong sales in Europe and the impact of foreign exchange rates, while falling short of the plan due to struggles in China and Intimates Online, Inc.

$>$ Sales in Europe have been strong, reflecting the body positive trend
$>$ Deliveries at Wacoal USA recovered at some of our business partners as the inflation rate stabilized
$>$ Intimates Online, Inc. prioritized improving profitability and restrained sales promotion investments, resulting in a decline in the number of visitors and a decrease in revenue
$>$ In China, the number of customers returning to our stores was weak even after COVID restrictions were lifted, and continued to remain sluggish

## The plan was exceeded by implementing cost controls in line with sales trends

> In addition to the effect of increased revenue, the positive impact of Wacoal China and the reduction of the deficit at Intimates Online, Inc. contributed
$>$ The impact of foreign exchange rates contributed to profit growth of $¥ 0.1$ billion, both in the same period of the previous year and the plan

Financial Policies during the Medium-term Management Plan (FY2023 to FY2025) Period

## Primary

Management Policies
$>$ Work on becoming more profitable as our highest priority, and also aim to boost our ROE by improving both asset and capital efficiency
$>$ Prioritize investment in future growth and actively return profits to shareholders to improve our capital efficiency

* While the aforementioned approach to boosting ROE remains unchanged, the target figures may be revised in the revision of the medium-term management plan, which is scheduled to be announced in mid-November

| Guidelines for the Medium-Term Management Plan (FY2023 to FY2025) period |  |
| :--- | :--- |
|  | Continue actively reducing policy shareholdings |
| Shareholder returns | Aim for policy shareholdings to make up 15\% or less of our net assets in the medium to long term |
|  | Pay out stable dividends at approx. a 50\% or higher payout ratio |
|  | Flexibly buy back shares to improve capital efficiency |
|  | If we cannot find any appropriate growth investments, we will give additional returns to further <br> improve our capital efficiency |
| Growth investments | Invest in IT and digital technology in order to grow, and consider opportunities to invest in new <br> businesses |

## FY2024 1Q Capital Policy and Shareholder Returns

## Management issues to address

> Improve profitability and capital efficiency, and quickly restore stagnant PBR to more than double the current level
> Establish an appropriate management system that can enhance corporate value
$>$ We recognize that it is important to improve profitability and capital efficiency, and to quickly restore stagnant PBR to more than double the current level
$>$ By shifting to a management style that focuses on profitability and capital efficiency more than ever before and by improving our execution of strategies, each operating company and business division will increase corporate value
$>$ It is necessary to further strengthen the supervisory function of the Board of Directors over business execution and to enhance the effectiveness of management
> In order to steadily improve profitability and capital efficiency, we will appoint an additional outside director with experience and knowledge in investment and financial/capital markets, verifying the skill set of the Board of Directors
> Due to the inadequate response to changing consumer needs and consumer behavior following the COVID-19 pandemic, the recovery of revenue was delayed
$>$ It is necessary to regenerate growth by providing new customer experience value and creating new businesses, while continuing to reform the cost structure and improve business efficiency

## Summary for FY2024 Initiatives

> Led by the Board of Directors, we will promote the transformation of management to focus on capital efficiency > By revising the medium-term management plan, we will improve the certainty of achieving the plan set forth in "VISION2030"

Growth strategies and structural reforms based on a highly effective medium-term management plan
Revision of the medium-term management plan

- We will review the business strategy of the current medium-term management plan announced in the March FY2023 term and also consider and announce measures to strengthen our management foundation in order to improve profitability and capital efficiency

Thorough business portfolio management

## Management focused on capital efficiency

"."."
Holdings and each operating company and business division will shift to management that focuses on profitability and capital efficiency more than ever, and improve the effectiveness of management

Significant failure to achieve the targets of the first year of the medium-term management plan (Struggles in Japan, the United States, and China)

> FY2024
> turning point

Increase strategy effectiveness (Strengthening of human capital)

Improve the
certainty of achieving the plan for "VISION2030"

Replenish our skill set for investment and financial/capital markets
Strengthening of management supervisory functions
$>$ In order to transform management with a better awareness of capital costs, we will examine the skill sets of directors and appoint additional outside directors with knowledge of the investment and financial/capital markets

## Initiatives to improve the effectiveness of the Wacoal Group's strategy

## Under the strategy committee, we promote initiatives for the revision of the medium-term management plan

The details of specific initiatives, KPIs, and timeline for achievement will be disclosed in mid-November
$\checkmark$ "Outside directors" will also participate in the committee and each project as appropriate
$\checkmark$ Use of external consulting services to improve the accuracy and effectiveness of structural reforms (targets: Introducing ROIC, Wacoal business structural reform)
$\checkmark$ The Wacoal business structural reform project, a project aimed at transforming the existing business model (value chain) will be promoted Specifically with a focus on "brand selection and concentration," supply chain management, inventory management, manufacturing and distribution costs, store profit and loss, and personnel competence improvements will be discussed.

## Reference8:FY2024 1Q Overview of Wacoal: Revenue and Business Profit for Major Business Units

## Revenue

## 22.5 billion yen

YoY:-¥0.6 billion(-2\%) planning difference: $-¥ 1.3$ billion(-6\%)
Business Profit

## 0.3 billion yen

YoY:-¥0.3 billion(-49\%) planning difference: $+¥ 0.1$ billion ( $+47 \%$ )

## Sales of main brands at physical stores fell short of the plan YoY

> High-end brand sales were strong, while mainstays like Wacoal and Wing struggled
$>$ By channel, e-commerce sales grew both in-house and in other companies, while physical stores were sluggish, mainly in department stores and mass retailers, which are the mainstay channels

## Exceeded the planned figures, which were based on careful estimates of cost trends and other factors due to cost reductions.

$>$ Although there was a decrease in personnel costs associated with the progress of the personnel plan, income decreased due to a decrease in sales and the soaring cost of sales
$>$ The plan, which carefully estimated cost trends and other factors, exceeded the plan due to the strengthening of cost control based on sales trends and other factors
